Lightbearer focused, compatible with multiple artifacts

This team was made for those times when you do not get a main artifact that screams overpowered.

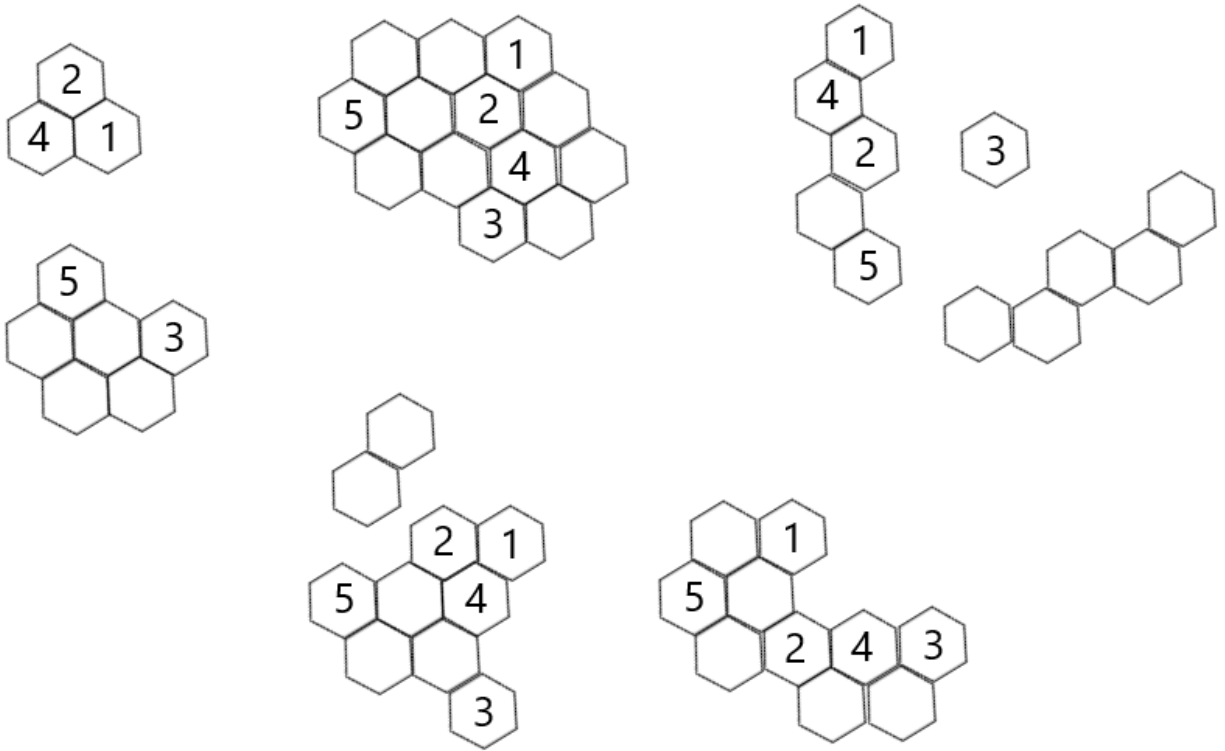

Good main artifacts: Grugling Mask, Luxurious Sachet, Immortal Flame, Inspiring Horn

Potential artifacts (either not tested or tested enough): Lithe Larkspur, Rock Necklace, Lucky Cage, Relic Shard, Swifty Book, Fragrant Bag

The main team: Lucius, Temesia, Rowan, Vala and Cecia

Strategy and items: We try to have Cecia ult as fast as possible, that means giving her and Rowan energy items. Vala should have a dps item, preferably something that gives more damage the farther away the enemy is OR gives ultimate damage. In case the enemy has a Vala, focus her with your Vala and have Temesia take the focus of the enemy Vala. Lucius can have pretty much anything you think is the best and Temesia is usually best with something related to crowd control.

Placement recommendations:

1 = Lucius, 2 = Rowan, 3 = Temesia, 4 = Cecia and 5 = Vala

Placements of course change if the enemy comp so requires, but these work most of the time

Item recommendations: Group 1 = Cecia and Rowan
Group 2 = Vala
